Please note additional teaching characteristics which you consider to be particular strengths of, or areas of suggested improvement for the TA as a teacher.

Amazing TA

very accomodating, knowledgeable about the subject, very willing to help out students

She is very approachable when I come over to ask her questions.

The class was organized in a very clear and effective way. The expectations were always very clear. Maureen and Lindsey did a wonderful job organizing the lecture series into a cohesive class. They are clearly passionate about their research areas and overall wonderful TAs. I would highly recommend their class to all of my friends. Despite coming in with no background in entomology I had a lot of fun and learned a lot of really cool information. Thank you Maureen and Lindsey!

I don't have any additional suggestions, this TA did a great job as a teacher.

Excellent TA! Communicative and friendly.

She clearly cares about the students. For example, I never had a one-on-one conversation with her, and only participated in class a few times, but she remembered my name by the last day of the quarter and addressed me as such. I felt acknowledged and cared for.
